

CAREER OVERVIEW

I am a 4th year computer science student pursuing a career in the field of software development and data science. Throughout my university life, I have gained experience with the fundamental concepts of programming and computer science. I am particularly interested in Machine Learning and its applications in different fields.

WORK EXPERIENCE

Front End Web Developer

Sept 2018 – Dec 2018

Review Board – Toronto, Canada (Remote work)

- Used Backbone.js and LESS to improve the user experience of the Review Board tool.
